

Application Guidelines for the Position of Professor

Graduate School of Medicine, Nagoya University

1	Open Position	Professor	
2	Institution	Tokai National Higher Education and Research System	
3	Affiliation	Public Health Informatics Unit, Department of Integrated Health Sciences, Nagoya University Graduate School of Medicine	
4	Description of the Position	[Job Description (Duties, Subjects in Charge, etc.)] (At the time of appointment) 《Duties》 • Conduct education and research in the fields of health data science. • Provide specialized education and engage in research activities in both the Master's and Doctoral Programs of the Graduate School of Medicine. • Participate in administrative and management duties within the Graduate School of Medicine and Nagoya University. 《Subjects in Charge》 (Graduate School) - Master's Program : Advanced Topics on Real-world Health Informatics, Practicum on Real-world Health Informatics, Introduction to Health Science Data Analysis, Research Work, a subset of the common courses at the Department of Integrated Health Sciences, etc. - Doctoral Program : Special Lectures on Advanced Real-world Health Informatics, Specialized Studies on Advanced Real-world Health Informatics, Research Work, etc. (Undergraduate School) -An Introduction to Data Science I, An Introduction to Data Science II, Introduction to Statistical Learning, Practice in Health informatics I, Practice in Health informatics II, Basic Inferential Statistics, Graduation Thesis (4 credits) , a subset of the common courses at the School of Health Sciences, a subset of the liberal arts and sciences courses at the university, etc. (Scope of change to Duties) • Duties designated by Tokai National Higher Education and Research System	
		[Workplace Location] (At the Time of Appointment) Higashi-ku, Nagoya, Aichi, Japan (Scope of change to the Workplace Location) Workplace location designated by Tokai National Higher Education and Research System	
		[Number of Positions available] One Professor position	
		[Starting date] January 1, 2027 (or as soon as possible thereafter)	
5	Research Field	Broad Section	Life science

		Basic Section	Hygiene and public health-related: excluding laboratory approach
6	Employment Conditions	Full-time Contract Term: No fixed term Probationary Period: Yes (six months from the date of appointment)	
7	Eligibility	[Required Qualifications and Expertise (including degrees and field-specific requirements)] In accordance with Nagoya University’s policies, the successful candidate must demonstrate leadership, enthusiasm, and a strong sense of ethics in graduate and undergraduate education and research in the field of Public Health Informatics. Applicants must meet the following criteria: 1. Hold a doctoral degree. 2. Possess advanced expertise and an outstanding track record in the analysis of diverse health and medical science big data—such as epidemiological data derived from community-based cohorts and disease registries, as well as multi-omics data including genomics—using data science approaches (statistical science, machine learning, and information science). The candidate is expected to lead and advance research and education in this field both domestically and internationally, and to demonstrate strong leadership and commitment to actively promoting education and research at both the graduate and undergraduate levels. 3. Be able to actively engage in interdisciplinary research with data science in the field of health sciences 4. Have at least five years of experience in both research and teaching. 5. It is desirable that the candidate be able, from a statistician’s perspective, to design trials aimed at the practical application and societal implementation of research findings developed or discovered by the candidate or other researchers. As evidence of this capability, it is desirable that the candidate has experience successfully completing, as the principal statistician, at least one clinical study conducted under the Clinical Trials Act or an investigator-initiated clinical trial. Completion is defined as the process from the formulation of the statistical analysis plan to the submission of the final report. Information on the relevant clinical trial(s), including the jRCT ID(s), must be listed under “7. Social activities and other matters deemed useful for evaluation” in the list of achievements. 6. Be capable of appropriately conducting education and research supervision in the fields of data science, epidemiology and omics analysis within the disciplines of public health and medical sciences. 7. Have a proven track record of securing external research funding. 8. A high level of proficiency in Japanese is required.	

8	Salary and benefits	[Working Conditions after Employment (Salary, Working Hours, Holidays, Insurance, etc.)] • In accordance with the employment regulations of the Tokai National Higher Education and Research System Employee Work Rules. https://public1.legalcrud.com/thers_ac/act/110010928.html (Japanese only) • Salary is based on the annual salary system as stipulated by the Tokai National Higher Education and Research System Nagoya University Annual Salary System for Faculty Members. https://public1.legalcrud.com/thers_ac/act/110001585.html (Japanese only) • The discretionary labor system for professional work is applied. Working hours are considered to be 7 hours and 45 minutes per day. • Holidays: Saturdays, Sundays, national holidays, and year-end/New Year holidays (December 29 to January 3). • Insurance Enrollment: Mutual Aid Association of the Ministry of Education, Culture, Sports, Science and Technology, Welfare Pension, Workers' Accident Compensation Insurance, Employment Insurance. • Measures to Prevent Passive Smoking: Smoking is prohibited on campus in principle.
9	Application period	Wednesday, July 15, 2026 - Friday, August 21, 2026, 5:00 p.m.
10	Application and selection process	[Application Procedure (Submission Address for Application Documents)] 《Application Documents》 (1) Curriculum Vitae (Please download Form 1 from the website of Nagoya University Graduate School of Medicine / Department of Health Sciences.) (2) List of Research Achievements (Please download Form 2 from the website of Nagoya University Graduate School of Medicine / Department of Health Sciences.) (3) Offprints or Copies of Three Major Peer-Reviewed Publications in the Field of Health and Medical Big Data Analysis. Please attach a summary of approximately 400 Japanese characters for each paper. (4) Summary of Past Research and Educational Activities, and Future Plans for Research and Education (Within two A4 pages) (5) Please provide the names, institutional affiliations, positions, email addresses, and telephone numbers of two individuals who can provide references regarding your qualifications. (6) Please state in the cover letter the earliest possible date you can assume the position, on or after January 1, Reiwa 9 (2027). (7) One Copy of “Self-Declaration Form and Flowchart for Type Classification” (Form 1, as specified in Item 11 ‘Additional Information’) * All application documents must be submitted in PDF format. Please compile items (1) to (5) into a single PDF file before submission. 《Submission Address》 Daiko General Affairs Section, Daiko Administrative Office, School of Medicine /

	Contact Information	Graduate School of Medicine, E-mail : iho_saiyou★t.mail.nagoya-u.ac.jp (Please replace ★ with @.) * All application materials must be submitted via email in PDF format. Please use the subject line: "Application for Professor Position in Public Health Informatics Unit, Department of Integrated Health Sciences." If the total file size exceeds approximately 10 MB, the email may not be received. In such cases, please divide the files into multiple emails and send them separately. 《Application Deadline》 Must arrive by 17:00 on Friday, August 21, 2026 [Japan Standard Time (JST)] (Strictly Japan Time) 《Contact Information》 Professor Kuniharu Imai, Division of Biomedical Imaging Sciences, Department of Integrated Health Sciences, Nagoya University Graduate School of Medicine 1-1-20 Daiko-Minami, Higashi-ku, Nagoya 461-8673, Japan Phone: +81-52-719-3114 E-mail : imai.kuniharu.m6★f.mail.nagoya-u.ac.jp (Please replace ★ with @) 《Homepage》 Please visit the top page of the Graduate School of Medicine/School of Health Sciences, Nagoya University (http://www.met.nagoya-u.ac.jp/), and navigate to the Faculty Recruitment section. Notification of Results [Selection Process (Method and Decision Notification)] • After an initial screening of the application documents, interviews will be conducted. • Candidates selected for an interview will be contacted via email or telephone. • Final results will be communicated to all applicants via email after the hiring decision has been made.
11	Additional information	• Nagoya University will actively recruit women if they are recognized as equal in the evaluation of performance (including research, education, social contributions, and character). • All submitted application materials will be used exclusively for the purpose of candidate selection and will not be used for any other purposes. • Application materials will not be returned. They will be handled with care and appropriately disposed of by the selection committee after the selection process is completed. • Travel expenses for attending the interview will not be reimbursed. • In November 2021, due to the clarification of the scope of controlled activities under the "Deemed Export" regulations based on the Foreign Exchange and Foreign Trade Act (FEFTA), the provision of sensitive technologies to university faculty and staff has become subject to control under this law. Accordingly, applicants for this position are required to review the "Flowchart for Determining Applicability of Deemed Export Controls" and submit Form 1: Self-Declaration on Applicability and Flowchart (Attachment) along with other

	application documents. Please download the self-declaration form from the link below, complete it, and include it with your application package. https://nuss.nagoya-u.ac.jp/s/ipBsmr9Mz2T5rRd Please note that, if you are selected for the position, you will be required to submit a separate written pledge (Declaration of Compliance). • Nagoya University actively promotes diversity and work-life balance. For more information, please visit the following URL. https://www.kyodo-sankaku.provost.nagoya-u.ac.jp/en/ https://www.nagoya-u.ac.jp/about-nu/upload_images/deib.pdf • If you have interrupted or delayed your research activities in the past due to childbirth, childcare, caregiving, illness, or other reasons, you may indicate this on your CV. At Nagoya University, you will not be unfairly evaluated for including this information.
